KSW CONSTRUCTION BEGINS NORTHPOINT PLAZA PROJECT

NorthPoint Plaza of Poynette, Wis., to be completed in June

MADISON, Wis., (January 27, 2009) – KSW Construction Corporation recently began construction of the NorthPoint Plaza full-service convenience store located in Poynette, Wis., according to KSW Construction Corporation vice-president Doug Slaby. The 6,230-square-foot facility will be located at W9290 CTH CS, west of Interstate 90/94.

The NorthPoint Plaza project will consist of a stand-alone convenience store, canopies, and new islands for gasoline and diesel services. There is an existing NorthPoint Plaza full-service convenience store on the same lot, and it will remain open until the new building has been completed. “KSW will be organizing construction around the operational facility until the existing building goes through demolition and the new convenience store is fully open for business,” said Slaby.

KSW Construction had the opportunity to partner with building owner, Harry Brar, on another construction project in Middleton, Wis., during the spring of 2008. “KSW is proud to have been chosen to complete a second project in partnership with Mr. Brar and the company looks forward to working with him on the NorthPoint Plaza,” said Slaby. Plans for the project include a completion date at the end of May, in order to have the new full-service convenience store open for business by Memorial Day weekend.

KSW Construction Corporation is a Madison-area full-service general contractor providing design/build and construction services for restaurant, commercial, industrial, retail and service projects with a fresh, progressive approach. Founded in 2005, KSW

Construction is committed to delivering a quality project on time and on budget, while providing excellent personal service.
